BAKER HARDWOOD LUMBER CO.

## ITALIAN POPLAR

Import **Italian Poplar** is a versatile lightweight MULTI-PLY panel perfect for veneering or laminating. It is manufactured with either a long or short grain, & has a clear whole piece face. Our 3mm bendable product is a great solution for contoured construction applications. Using an all poplar core that is virtually voidless, along with an exterior marine grade glue, this panel has excellent strength & screw holding ability. Whether you're building cabinets, furniture, or fixtures, when weight is a concern, ask for **ULTRALITE ITALIAN POPLAR**.

### Features & Benefits:

- MULTI-PLY construction
- Extremely light weight
- Uniform white color
- Low formaldehyde emissions
- All thicknesses in stock

3 mm	4 x 8	8 x 4
6 mm	4 x 8	8 x 4
9 mm	4 x 8	8 x 4
12 mm	4 x 8	8 x 4
18 mm	4 x 8	8 x 4
25 mm	4 x 8	

## BALTIC BIRCH w/ INTERIOR GLUE

Forest Plywood's imported **Baltic Birch** plywood features an all-hardwood composition. Its MULTI-PLY birch veneer core provides superior strength & edges, perfect for exposed-edge applications. Commonly used for lamination substrates, cabinet & furniture components & dies, **Baltic Birch** is prized for its superior stability & strength. It is available with an interior or exterior glue line, & comes in a full range of grades.

### Features & Benefits:

- Uniformly light, even color
- Full range of grades
- Interior and exterior glue lines
- Multiple inner plies for added strength and greater screw holding power

## BALTIC BIRCH w/ CLEAR UV COATING & EXTERIOR GLUE

Our pre-finished birch ply is both durable & versatile. It resists scratches, chips and is very stain resistant. Perfect for cabinets, store fixtures, or anywhere a durable, clear finish is required.

### Features & Benefits:

- Beautiful, durable finish resists scratches and chips.
- Finished surface reduces labor time, increasing productivity and efficiency.
- UV finished surface reduces VOC emissions.
- Whole piece face, patch free, long grain, virtually voidless

## EURO - BIRCH

Forest **e-birch™** is attractive, strong, & resilient. Its virtually void-free construction provides excellent machinability. With tighter thickness tolerances than standard veneer core panels, **e-birch™** processes more efficiently, making it ideal for high volume production. All **e-birch™** products are produced with a phenolic resin waterproof glue.

### Features & Benefits:

- Tighter thickness tolerance to assure accuracy and efficient production.
- High-contrast plies for uniform decorative edge.
- Virtually void-free for better results and lower reject rates.
- High-density construction for consistent cutting performance and increased screw holding capacity.
